

Life Seal Vascular Inc. Selected for Presentation at Charing Cross Innovation Showcase and Dragon's Den

Costa Mesa, CA – April 25th, 2023 – Life Seal Vascular Inc., a pioneering company dedicated to revolutionizing endovascular treatment, is proud to announce its selection for the prestigious Innovation Showcase and Dragon's Den at the upcoming 45th Charing Cross (CX) Symposium. The event will take place from April 25-27, 2023, in London, and Life Seal Vascular's innovative solutions will be presented during this invite-only session dedicated to cutting-edge innovations and the most promising startups in the medical technology sector.

The Innovation Showcase and Dragon's Den at the Charing Cross Symposium is a highly anticipated segment that features groundbreaking advancements and provides a platform for startups to present their technologies to a global audience of industry leaders, clinicians, and investors. This recognition highlights Life Seal Vascular's commitment to advancing endovascular aortic repair through innovative and effective solutions.

"We are honored to be selected for the Innovation Showcase and Dragon's Den at the Charing Cross Symposium," said Bob Mitchell, Executive Chairman of the Board of Life Seal Vascular. "This opportunity allows us to present our latest innovations to a distinguished audience and further our mission of improving patient outcomes in vascular care."

Life Seal Vascular's presentation will focus on prophylactic sac management system, demonstrating its potential to revolutionize endovascular aortic repair procedures and enhance clinical outcomes for abdominal aortic aneurysm patients. Attendees of the showcase will have the chance to engage with Life Seal Vascular's team, explore the unique features of their technology, and discuss potential collaborations and investment opportunities.

The Charing Cross Symposium is one of the leading events in the vascular and endovascular calendar, bringing together experts from around the world to share knowledge, discuss the latest research, and explore the future of vascular health. Life Seal Vascular's participation in the Innovation Showcase underscores the company's position as a leader in the field and its dedication to pushing the boundaries of what is possible in vascular care.

About Life Seal Vascular, Inc.

Life Seal Vascular Inc. specializes in innovative sealing technologies for endovascular repair of aortic aneurysms. Their proprietary solutions has the potential to eliminate endoleaks, the main cause of reinterventions in Endovascular Aneurysm Repair (EVAR). By completely sealing the aneurysm, Life Seal Vascular's devices ensure predictable deployment and do not interfere with imaging, thereby enhancing the effectiveness and safety of endovascular repair procedures.
